Print in two or more colours!

Complete Package for just £399.00+VAT

Simply connects to your existing PC (Laptop not included in the package)

When you purchase our starter package, we will give you a list of recommended suppliers from where you can purchase all types of ribbons, in various sizes and colours. Thus, there is no need for you to hold stock, simply order as and when you need them!

A wide choice of ribbons is available

We now offer printing foils in nine different colours, including Matt Gold & Silver, Red, Green, Blue, Black, White as well as Metallic Gold & Silver.

Nine foil colours available

All our foils are available in standard 50 metre lengths. We do however offer them in 55mm or 100mm widths. The 55mm width foils will enable you to make savings when printing narrower ribbons rather than using the full 110mm width everytime.

Forget custom made software, CorelDraw is a world renowned powerful graphics package which will enable you to be far more creative in your designs.

CorelDraw Software comes as standard (Box show for illustration purposes only)
